

MAAS – Mindtree Anytime Anywhere Solution

With the growing need for automation on different technologies and platforms enterprises not only want to provide customized infrastructure on one click but also would like to enable application deployment with the complete setup in one go & in fully automated manner. However, automation of infrastructure, platform and application layer introduces many new and complex dimensions with its own list of testing challenges:

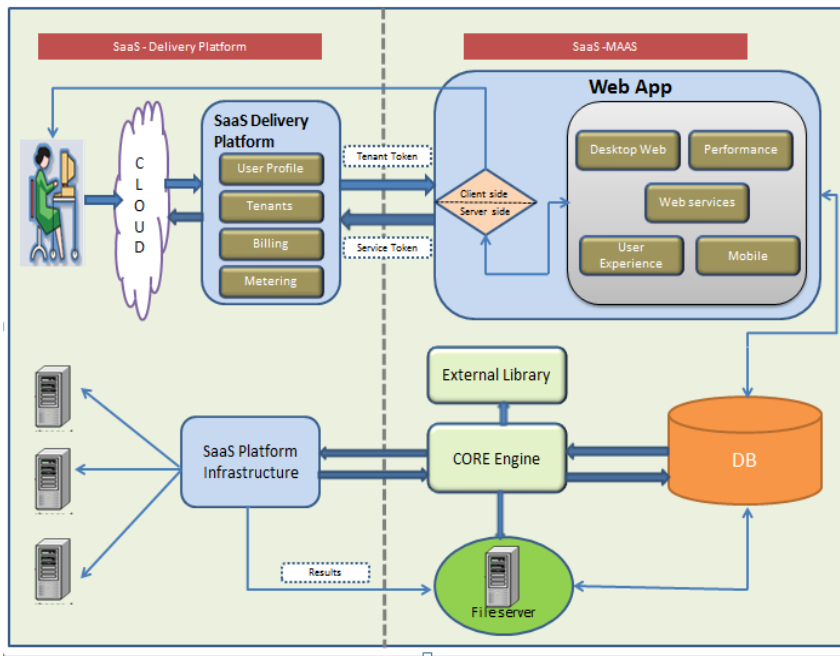

- ✓ Manage data from different locations in a unified manner
- ✓ Integration between different tools
- ✓ Manage network automation efficiently
- ✓ Testing on multiple mobile & platforms & OS
- ✓ Easy maintenance of scripts
- ✓ Reduces time taken to develop effective automation
- ✓ Choosing an appropriate framework with right infrastructure
- ✓ Integrate, deploy and test a solution in different environment
- ✓ Release & configuration management in a reusable & cost effective manner
- ✓ Confidential Data Security & Service Efficiency

As today's product delivery life cycle is witnessing various challenges with application agility, new technologies coming up frequently, new tools & techniques to suffice different automation needs to offer a unified platform, tools, interface is the way-to-go. An "On Demand" Solution provides instant access to all services with zero infrastructures.

Mindtree Anytime Anywhere Solution or MAAS is a cloud based infrastructure as a service (IaaS), which offers different automation services such as Web Services testing, Web applications testing, Mobile testing and Performance testing

Key Features of Mindtree Anytime Anywhere Solution

- ✓ Zero Infrastructure
- ✓ Seamless upgrades
- ✓ Guaranteed Levels of service
- ✓ Work's anywhere
- ✓ Security
- ✓ Easy to Scale up
- ✓ High Availability
- ✓ Ease of use

Mindtree Anytime Anywhere Solution Features
